Output

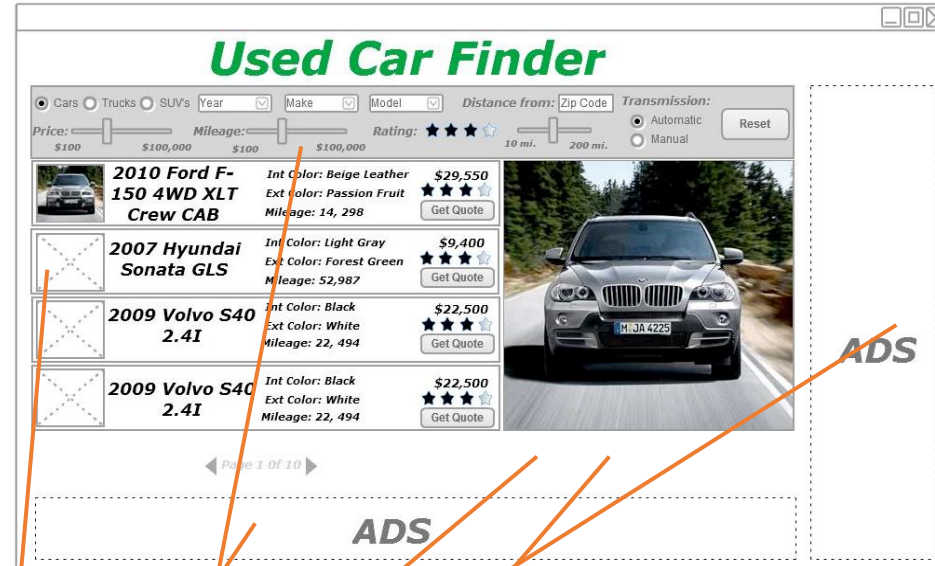

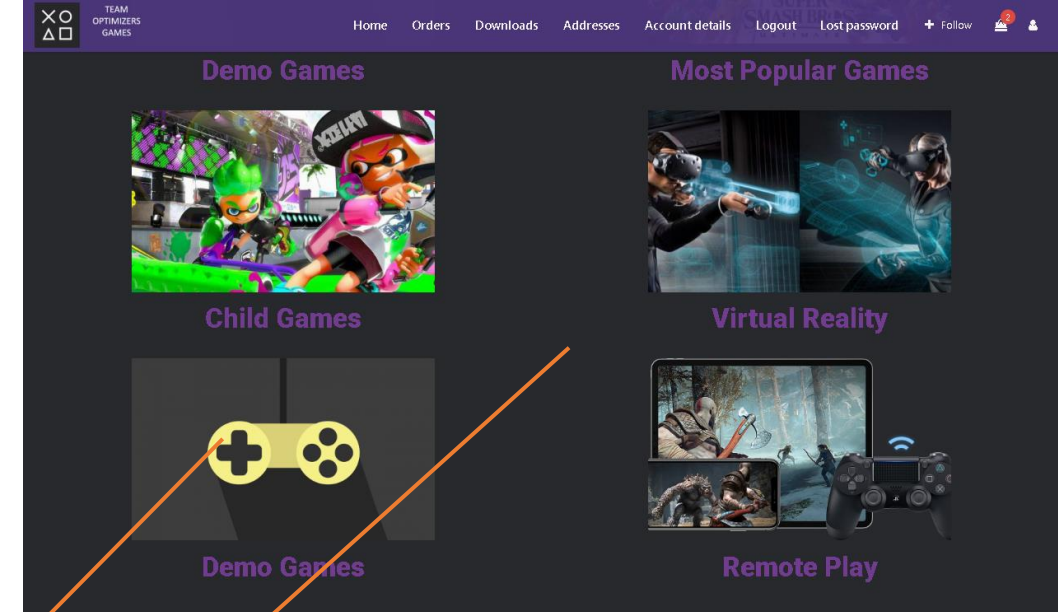

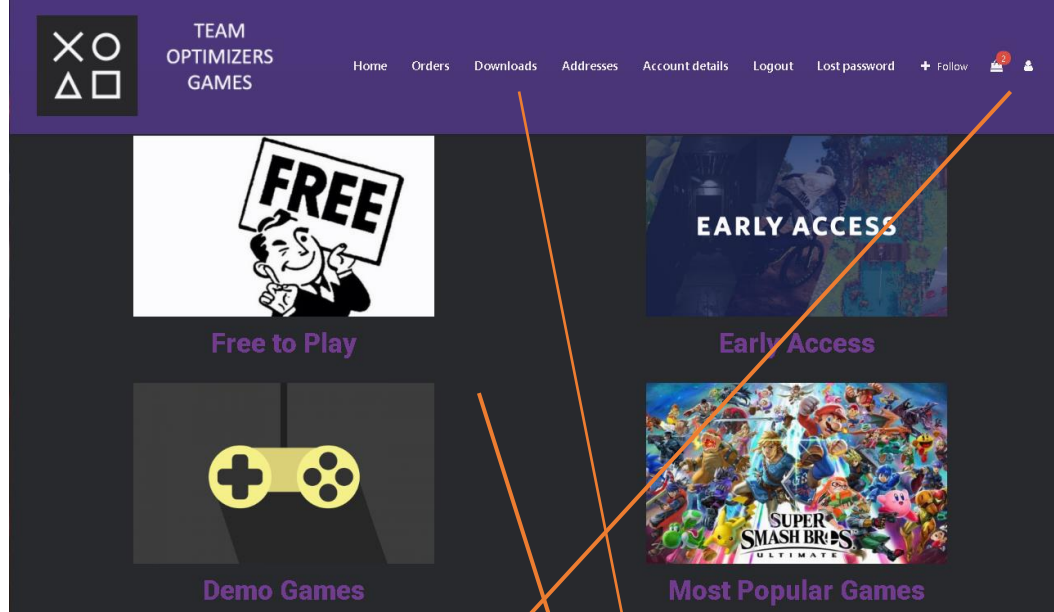

Interface:Used Car Finder
Date: 30.04.2020
Evaluator(s):Halil Ibrahim Uluoglu

Problem	Heuristics violated	Severity 1 -3
Some pictures are missing	Visibility of system status	3
Ads are not proportional according to the main interface	Match between system and the real world	1
Okay button is missing	User control and freedom, Flexibility and efficient using	1
Compare functionality between two objects	Recognition rather than call	2
Mileage unit is wrong and not optinal	Consistency and standarts	3

Problem	Heuristics violated	Severity 1 -3
No search button	User control and freedom, Flexibility and efficient using	3
Multiple unnecessary menu elements	Consistency and standarts	2
Same category menu	Consistency and standarts	3
Unrelated and can intersect categories		3

Evaluation:

In order to create user flexibility we added a search button. So, users can search a game without following category order.
